### REINA REGENTE FOUND.

The Spanish Cruiser Sunk Near the Straits of Gibraltar.

THERE IS NO TRACE OF HER CREW.

There Were Four Hundred and Twenty Men on Board the Vessel, and It Is Believed That Every Soul Perished-The Search for Dead Bodies.

CADIZ, March 20.-The Spanish cruiser Alfonso XII has returned here after a search for the missing cruiser Reina Regente, and reports having found the latter vessel sunk near Bujo Aceitanos, not far from the Straits of Gibraltar. Only twenty inches of the Roina Regente's masts were above water.

The Alfonso XII has returned to the scene of the wreck with a number of divers and diving apphances, in order to recover the bodies of the crew of the sunken war-

ship.
The Reina Regente was reported missing on March 13. She had just conveyed from Cadiz to Tanger the returning Moorish mission to Spain. The cruiser left Tangier on March 10 for Cadiz, and her whereabouts had not been definitely ascertained until yesterday. Pieces of one of her boats and sem vilore flags were reportal to have own picked unalong the shore near Courta and Parity. She carried acrew of 12) officers and men, and all hands are believed to have perished.

Manan, March 20 -The positive news of the loss of the Epanish craiser Reina Regente, which reached here from Cadiz immediately after the arrival there of the erniser Alionso XII, caused the greatest emotion in Madrid and throughout Spain. The que in recent was deeply distressed. By her majesty's orders the sacrament has been expired night and day in the royal chapel from the time the first report of the disaster reached her, and by her direction prayers for the safety of the Reina Regenta have been said continuously ever

The officials here consider that it is still possible that the officers of the Altonso XII are mistaken in their identification of the wreck as that of the Reina Regente. Sener Moreu, lately the commander of the cruiser Conde de Venedito, said in au interview that he believed that such an expert sulfor as the emptain of the Reina Regente would have quit the dangerous coast. in the vicinity of Tangler at the first

The government probably knows whether or not the vessel has been lost, but is hiding the truth until a new ministry shall have been formed. It is stated that the search will be continued, but this is a for-Jorn hope. The common people are loud in their maledections, which they direct against the Moorish mission, to convey which back to M rocco the Reina Regente was som to Tangier.

Governor Hastings sent to the house his veto of the bill granting a pension to Hamilton Smith, of Jefferson county. The governor says that more than thirty-one years have elapsed since the alleged injury was received in the service of the state, and the lapse of time makes it difficult to establish the claim and right to the bounty of the state. He suggests that the legislature should establish some tribunal to determine the merits of such claims before appropriations are made,

TAMPA, Fla., March 20.—The steamer Mascotte arrived last evening direct from Havana, and brought late reports from the seat of revolution. Copies of La Lucha confirm the report of the sinking of the schooner by the Spanish gunboat off Puerto Padre, near Gibara. In the same issue there are reports of the departure of General D. Jorge Garrich and Colonel Santo Cildeo, with their commands, from Jiguani, and their attack on insurgents at Los Negros, at which place a battle was fought. This confirms previous reports. For two days uncertain and untraceable reports have reached here regarding an American schooner being fired upon by a Spanish gunboat on the southern coast of Florida. Yesterday's steamer brought news from Key West, which is said to be authentic, claiming that the schooner Irene, of Key West, had been fired upon and dismantled by the Infanta Isabella near Charlotte harbor, after which the schooner drifted ashore, where she now lies aground south of the above harbor. It is generally understood that the authorities at Washington have been notified of it. The Irene is a coasting schooner of sixty tons, commanded by Captain Car-

#### ballo, and generally carried a crew of eight. Spain Has Not Yet Answered.

MADRID, March 21-El Correo denies totally the truthfulness of the report that the Spanish government has expressed to the United States its disapproval of the action of the gunboat which it is claimed fired on the American steamer Allianea off Cape Maysi, the castern extremity of Cuba. The paper adds that Senor Groizard, the foreign minister, is awaiting an official report from Hayana before definitely replying to the note presented to the government by the Hon. ### A ROYAL BETROTHAL.

The Duke of Aosta and Princess Helene of Orleans Exchange Rings.

PARIS, March 20.—The betrothal of the Duke of Aosta and Princess Helene was conducted with the utmost ceremony. Owing to the recent death of the Count de Paris, all present were attired in deep court mourning. The ceremony of betrothal was preceded by a walk in the park, after which all assembled in the salon of the Chateau Chantilly. The princesses alone were seated.

The Duke of Aesta entered the salon and approached the Countess of Paris, the mother of Princess Helene, and said that he had the happiness to believe that he had won Princess Helene's heart, and that his wishes would be crowned if the countess would consent to their marriage. King Humbert's consent, he added, had already been obtained. The countess replied that she was happy to confide her daughter's happiness to the care of a prince whom she personally esteemed and whose august house was already connected by marriage with the house of France.

The duke then kissed the hand of the countess, and afterward kissed Princess Helene's hand and led her to an embrasure of a window, where they exchanged rings. The duke and the princess had been previously engaged, but it was thought due to the dignity of both houses that a formal demand be made for Princess Helene's hand. The acceptance of the proposal was immediately telegraphed to the Italian embassy in Paris.

It is stated that the wedding will be celebrated at Turin in April, and that the ceremony will probably take place in the Della Cisterna paince.

### GRESHAM VS. THURSTON

Reported Demand for the Hawaiian Minister's Recall.

THE RUMOR LACKS CONFIRMATION.

Both Minister Thurston and State Department Officials Refuse to Either Confirm or Deny the Story-A Similar Report Anent the Spanish Minister.

Washington, March 20.—It was reported here last night that Secretary Gresham had demanded the recall of Lorin A. Thurston, the Hawaiian minister to Washington, on the ground that he was persona nongratia. When Secretary Gresham's attention was called to this statement he positively refused to say one word in confirmation or denial, and other officials of the state department allege ignorance of the matter. It is known, however, that there has been much friction between the minister and the state department in the transaction of business, dating back to Mr. Thurston's appointment as minister. Probably because he was aware of the state of feeling towards himself the minister has always been singularly guarded and discreet in his public atterances, as far as can now be recalled, so as not to subject himself to censure.

Every effort has been made officially to disguise the real state of affairs. The Hawaiian minister's name has been scrupulously included in all state functions in which the diplomatic corps plays a part, and on at least one occasion be has been tendered the honor of a special dinner by Secretary Gresham, but it is known that there have been stormy interviews between them.

Minister Thurston was seen and positively declined to discuss the report. He was at the legation office, and was busily engaged in preparing a budget of official mail to Hawali. He said the report was of such a character that he would maintain absolute silence. He did not want this taken as an intimation of affirmation or denial. He was asked specifically if he had been recalled, and declined to answer. He was also specifically asked as to the closing of the state department against

him and he made the same response. It is recalled now that Mr. Thurston has not been seen at the department of state in person recently, although Mr. Hastings, the secretary of his legation, and the charge d'affaires during the absence of the infaister, has been a frequent visitor, though not on diplomatic errands, so far as can be ascertained. Walle it is doubtful if Secretary Gresham has gone so far as to demand the recall of the minister, it is believed to be probable that he has at least allowed some hint to reach the Hawanan government through our minister, Mr. Willis, to the effect that the relations between the state department and Minist, r Taurston were not entirely cordial, though there is good ground for the belief that the Hawanan government

has not acted as yet upon the limit. At any rate the Hawa ian newspapers in to March, o, which reached ington yesterday, make no mention of the reported rupture in any shape, and while it is true in ic the Hawkinn government may have observed secreey as to the receipt of such a disagreeable piece of news, still it would have beyond doubt felt bound to make public an event of such importance

as the recall of its principal minister. Gossps are conjuring with another rumor that the spanish minister's recall will be demonde in because the gave an intery ner to the papers a few days ago criftcizing Seep tary Gresbam. Naturally there is a commotion among the diploшаць

Getting Ready to Open the Canal-Unusualy Good Roads-Other Newsy frems.

Correspondence Argus and Mercury. -The employes of the D. and H. have commenced getting the canal in shape for the season of 1895. From present reports it's the intention of the company to have the canal in readiness for boating by the first of April, that is if the weather will permit. I also learn that there will be only about 460 boats engaged in the transportation of coal this season. This possibly will make the business quite good for the lucky men who e retained in the company's employ. Last year there were about 600 boats carrying coal, but owing to the railroads, it seems that so many are not necessary. Prior to the war there were as high as 1,300 boats carrying coal on the canal.

-The roads are quite good about here, considering the unusual amount of snow we had to contend with this spring. The snow is wasting slowly, and for that reason we are not overrun with water as we are generally in the spring. Our road across the swam, has thus far remained out of water and the patrons of the railroad can cross without getting their feet wet.

Her other books are "A Poppy Garden," "Prior Raher's Rose," "Madonnas of the Smoke" and "Flight of the Swallows," all of which have been widely read.

Miss Morgan's father, Henry K. Morgan, is one of the wealthiest residents of Hartford, and his gifted daughter is thus enabled to devote to charity the earnings from her pen that would otherwise be needed for her support. Her father is thoroughly in sympathy with her philanthropic work, and the young novelist's task of maintaining deserving young women during the summer in pleasant country homes seems destined to continue a long time.

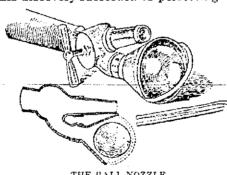

Miss Morgan was educated at St. Margaret's school in Waterbury and is a devoted Episcopalian and one of the foremost promoters of the Hartford Woman's Exchange. One of her brothers is the Rev. G. Brinley Morgan, rector of a prominent New Haven church, and another is Dr. William D. Morgan.

### A NOVEL NOZZLE.

The Ball Stays In the Bell, but Why We Cannot Tell.

Nature frequently reveals her profoundest secrets by accident, and science is often aided as effectually by chance as by study. The fall of an apple betrayed to the idling Newton the attraction of gravitation, and an errant potato, obtruding itself where it was not wanted, demonstrated a new principle of science which savants are still unable to account for with certainty.

The modern Newton is Mr. Charles V. Pollock, who was experimenting with a lawn sprinkling hose one summer's day in 1892 in the cellar of his house in Des Moines. A small round potato became lodged in the nozzle, and to Mr. Pollock's surprise no pressure of water was sufficient to dislodge it, although it did not impede the flow of the stream. Mr. Pollock accepted the hint, although he could not account for it seientifically, and after experimenting with his discovery succeeded in perfecting an

THE BALL NOZZLE.

invention which he calls the ball nozzle. The principal utility of this nozzle is in the fact that it scatters the stream of water in a spray, which is said to be remarkably effective in extinguishing fire and is also useful for lawn sprinkling and irrigating purposes.

Briefly, the nozzle is almost exactly the same in construction as the ordinary one now in use in most fire departments. The only difference is that the end is shaped like a bell, and in this bell is placed a ball of solid, polished rubber. The ball is loose and there is nothing to hald it in position except a loop of brass over the front of the bell to prevent it from rolling out when the hose is not in use. When the stream is on full force, the guard is unnecessary, although one would imagine that the force of water would drive the ball out of the bell like a shot from a cannon. On the contrary, however, it holds it in. and the more pressure turned on the more secure is the ball in the bell. The ball does not stick tightly against the outlet, but is held at a distance from it of about a quarter of an inch. The flow is not in any way retarded by the presence of the ball, but the stream is spread to a remarkable extent, and therein lies the efficacy of the nozzle, says the inventor. A second nozzle for a solid stream is attached to the hose, so that the man who is manipulating it can have either sort of a stream.

An interesting discussion has arisen in the New York papers concerning the seemingly paradoxical action of the bail in the nozzle. One writer says it is due to the aspirating action of the jet of water extracting the air from between the surfaces of the ball and the bell shaped socket. The atmospheric pressure on the other side of the ball is then sufficient to hold it in place. Other explanations are advanced, and pending further experiments many scientists acknowledge themselves to be puzzled by the problem.

### It is Injurious To Stop Suddenly

And don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of the use of tobacco you must have some stimulant, and in most all cases

stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about "BACO-CURO." It is purely vegetable. You do not have to stop using tobacco with "BACO-CURO." It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An ironclad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded.

He had chewed tobacco for over forty years, and the last year used over sixty-five pounds. He commenced using "Baco-Curo" and one box did not have the effect, when he had used about one-half of the second box, he began to lose his taste for tobacco, and when he had used one-half of the third box he had lost all his appetite for it, and is now entirely cured. Began taking same according to directions and can say that I am completely cured of the tobacco habit "Baco-Curo" is simply wonderful and I recommend it to all who are slaves to the tobacco habit and wish to be cured. I am in perfect health and have not felt so well in years. That terrible craving, which every tobacco user has more or less, has completely disappeared and I feel like a new man. Clayton, Novada Co., Ark., Jan. 28, 195. Eureka Chemical & Mig. Co., La Crosso, Wis. Gentlemen—For forty years 1 used tobacco in all its forms. For twenty-five years of that time I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit, but couldn't. I took various remedies, among others "No-To-Bac," "The Indian Tobacco Antidote." "Double Chloride of Gold," etc., etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Baco-Curo" and it has entirely cured me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feelings and condition. Your respectfully. P. H. Marbury, Pastor C. P. Church, Clayton, Ark.

WHAT MR. KRAEMER SAYS OF "BACO-CURO." ATLANTIC, Iowa, Feb. 4, 1895.
This is to certify that I. F. D. Kraemer, of Atlantic, Iowa, was an inveterate smoker of

cigarettes for more than two years.

About eight weeks ago I bought three boxes of "Baco-Curo." I began taking it according to directions, and after taking one and one-half boxes, all the desire for cigarettes left me. and I

have had no desire since.

I can heartily recommend "Baco-Curo" to all who are slaves to the cigarette habit or tobacco habit in any form, and are in search of a cure. I had become so under the influence of cigarettes, I could not remember anything; could not study, unless under the influence of drug, which is death in the end, if kept up.

Cigarettes are sapping the lives out of more boys and young men to-day, than anything that is known to the world. Boys, before it is too late get some of this remedy that killed the craving for cigarettes in me and save your young life. Restore yourself to manhood. You will feel as though you had escaped an awful doom, and you have, when cured by "Baco-Curo," for you feel like a new being. I never felt better in all my life than at this present writing. I did not know what was the matter with me, until informed by the agent. He told me what was the reason I could not do anything unless under the influence of the death-dealing poison found in cigarettes. I did not believe him at first, until he explained the action on the system. Then I bought the goods and thank God and all concerned, I am a sound person to-day. Hoping that this may reach the unfortunate cigarette smoker, I remain, Yours respectfully, F. D. Kraemer.

CAPT. JACKSON POST'S CAMP FIRE. Reception to Gen, DeWitt Camp., 8, 6f V. A Picasing Programme.

Capt. William A. Jackson Post, No. 301, G. A. P., entertained Gen. D. P. DeWitt Camp, No 37, at the quarters of the P st in Oad Fellow's Hall, last evening. About 200 voterans, sons of veterans and inviter guests were present, and a most enjoyable evening was spent.
Comrade W. C. F. Bastian offici-

ated as master of cecemonies, and after a short address of welcome introduced Misses Wells and Mulien, who rendered the duet, "La Fille du Regiment," on vicin and plane, in admirable style.

A quartetre, consisting of Mr. and Mrs. H. L. Adams, Miss Julia Wickham and Mr. George Wickbam, sarg "The Ship of State," and in response to the hearty encore sang "I'll Set My True Love Free."

Miss Ella Case, the eight-year-old daughter of Mr. Benjamin Case, of Monhagen avenue, recited a poem, entitled "The Loss Child." The little lady is a born elocutionist, and bids fair to become distinguished in that line of entertainment.

Mr. Herbert Hirst, who has the reputation of always pleasing his audience, then sang a tenor solo, Take Back the Engagement Ring." He was followed by a violin and

piano duet, "Sounds from Home," by Misses Wells and Mullen. The programme was concluded with a solo, "The Old Camp Ground," rendered by Miss Julia Wickham, assisted in the chorus by Mr. and Mis. Adams and Mr. Wick-

The company then adjourned to the supper room adjoining the lodge room, where an excellent banquet, prepared by the Women's Relief Corps of the Post, was spread. After full justice had been done to the good things spread before them, the company settled back and were entertained by post-prandial speeches by Maj C. B. Wood, W. C. F. Bastian, E. S. Merri I and others.

A feature of the supper was "Gabe" Tuthill's Grand Army cake,-a large dish of baked beans covered with icing and garnished with green leaves and red berries.

The happy party broke up about midnight, fully convinced that as entertainers the members of Captain Jackson Fost are second to none.

ARE THE LOCAL COURTS UNDER BOSS RULE?

But Few Prisoners to the County Jails and the Reason Why as Stated by a Contemporary,

Toe Independent Republican says: It is doubtful if at any peri d in recent years the county jails at Goshen and Newburgh have held fewer prisoners than at the present time. It must not be hastily con-cluded from this that the community is becoming better or more virtuous or that there is a laxity in the enforcement of our criminal laws. Such is not the case. The direct cause is the refusal of Sheriff Beakes to appoint Mr. R. J. Hock as Under Sheriff at Newburgh, He threw down the gauntlet in so doing and defied Boss Odell and his lieutenants to do their worst. And they are doother than that he had become tired ing it. Prisoners whose offenses of this world and felt despondent, be-warrant it are being sent to the peni-tentiary, while minor offenders are given the shortest possible sentence to the county jail or else discharged. It is a pretty fight in which our Republican brethren are involved and the taxpayers are likely to derive a substantial benefit from it in decreased Sheriff bills.

The above would imply that the justices and police courts of the county are being run under Boss Odell's orders. It's a sad state of affairs if true, even if the taxpayers should be benefitted temporarily, while Sheriff Beakes is getting his punishment.

Some of the Realistic Effects in Friday Aight's Casino Attraction.

The days of olden time, when a few sets of scenery would do justice to most plays, have gone by, and have given way to the day of magnificence and splendor. In "The Danger Signal," which will be seen at the Casine, Friday night, realism takes a prominent place, and to properly produce the effects, (which include a monster locomotive made of steel and iron, propelled by steam, with the working gear exposed; a freight train; a telegraph office; a cyclone lotary snow plow, and the cannon bail train, consisting of a locomptive, tender, three coaches 180 feet long, twelve feet high, crossing the stage at a rate of fifty miles an hour), two cars are used in the trans. portation of the same. Everything is new, and not one particle of the stock scenery of the theatre is used in the production.

LITERARY NOTES.

-Mr. W. H. Mallock, the eminent English student of Socialism, has written for the April number of The Forum one of the most luminous explanations of the fallacies of Socialism which has ever appeared, entitled "The Real 'Quintessence of Socialism.'" It is a striking essay in Mr. Mallock's usual lucid style.

### A RUNAWAY ON JAMES STREET

One Wagon Upset and Another Col lides With an Electric Light Pole,

About 11 o'clock this morning a team of horses belonging to Harry King of Otieville, became unmanageable in King street, opposite Predmore & Son's store and started to run. They collided with a wagon driven by John Flynn and upset ir, scattering in the street milk cane, coal and several other articles with which the wagon was loaded.

Mr. Flynn's horses were caught and no damage to his wagon was done. Mr King's horses ran down James street to West Main, where the wagon struck the electric light pole on the corner and was brought to a standstill. The horses were caught before they had freed themselves from the wagen. They were rupping at full speed and but for the eallision with the pole would have Cached into Ogden's harness shop the opposite side of the street.

### TWO FROGS.

Occe upon a time two frogs without being consulted in the matter, found themselves shut up in a milk can and on the rwiv to mar ket. They soon found they could not live below the sarface, and they had to kick v gororsly in order to keep their heads above the mick One of them, after working haid for a time.became discouraged and said, 'There's no use kicking longer; let's give up and go to the bottom. The other frog said, 'On, no, let's keru on k ching as long as we can. and see was; the outcome will be: we may got out alive yet." The othnot give up but kept on kicking. and when the can was opezed he had kicked out a lump of butter on which he was floating with ease The moral is plain-during such times as these, do not get discouraged and go down, but keep right on kicking and perhaps a few more kicks will bring the butter.

We take this opportunity to remind you that we are still kicking away at 30 North street, and will appreciate very much any orders or busine-s that you can give us or turn our way.

ST. PAUL'S QUARTERLY CONFERENCE NINE TO FIVE AGAINST ITS PASTOR-

The Vote Taken Last Fall Asking for His Return Reconsidered-The Motion Made by a Former Friend of Dr. Darwood Who Loves His Church Too Well to see It Wrecked-Br. Darwood's Angry Words-Presiding Etder Mickle's Wise Counsels-What Last Night's Vote Really Means.

The last quarterly conference of the year was held at St. Paul's Church, last evening, with Presiding Eider Mickle, of the Newburgh district, in the chair. The session was a very lively one and resulted in action which is almost certain to result in the termination of Dr. Darwood's pastoral connection with the church.

For the benefit of those who do not understand the organization of the Methodist Church it may be stated church is composed of its exhorters, local preachers, class leaders, superintendent of the Sunday school President of the Epworth League, stewards and trustees and deals with al! questions relating to the spiritual welfare of the church and with many matters that affects its temporal interests. The attendat ce, last night, was large.

THE CALM BEFORE THE STORM. There were no signs of the coming tempest while routine business was being transacted. The exhorter's iteense of Excise Commissioner John W. Hill was renewed without opposition, a significant fact, because about he time of the Darwood trial, Dr. Darwood demanded the surrender of the license. Mr. Hill did not surrender it, Presiding Elder Mickle having advised him that Dr. Darwood had no right to ask Thim to give it up. It is also understood that Mr. Mickle advised Dr. Darwood to withdraw his demand for the license, but Dr. Darwood did not act on this suggestion. That Dr Darwood made no objection to the renewal of Mr. Hill's license may be regarded as one of many evidences that he is not quite so certain of his ability to crush all who differ with him, as he was when he was 'virdicating" himself a few months

All the stewards whose terms are about to expire were re nominated and re-elected. They are: Wm Budd, W H. Bentos, John Creesy. Frank Masterson, W. H. Koapp. S. D. Hampson, Emory VanKeuren, C. J. Thayer. C. W. Martir, C. J. Cooper.

MR HAMPSON'S CHANGE OF FRONT,

Mr Samuel D. Hampson, who was nominated by Dr. Darwood to succeed Mr H. P. Powers as steward. when the latter retired from the official board of the church and who members of the church, turned the calm of the meeting into an angry cyclone by moving a re-consideration of the vote taken at the last quarterly conference, which asked for the return of Dr. Darwood as ing Dr. Darwood to another field, and pastor of St. Paul's Church. The motion was seconded by Mr. T. W. Davey, who has also been a thick and thin adherent of Dr. Darwood.

Mr. Hampson attempted to speak on his resolution, but was interrupted by motion to adjourn and angry murmurs of disapproval. He insisted on his right to the floor and the Presiding Elder ignored the motion to acjourn, saying that he was here to hold the conference and that the business of the meeting would have to be transacted.

THE BLIGHT OF DARWOODISM.

When order had been restored Mr. Hampson resumed his address. He said that it was with the deepest regret that he made the motion to reconsider the action taken at the last quarterly conference in regard to Dr. Darwood's return. He was impelied to it by a sense of duty to the church and its spiritual and temporal welfare. It was a sad admission be was compelled to make, but he was constrained to say that he believed Dr. Darwood's usefulness in Middletown was hopelessly impaired. Interest in the church and its services was plainly in the wane. It had lost its hold on the young people and there had been a marked falling off in the attendance. Its finances were yetting into an unsatrefactory condition. It was scoffed and sneered at, jeered and ri 'iculed about town and was becoming "a hissing and a reproach." It seemed to him that the only chance of restoring the church to its former usefulness and to the high place it once occupied in the confidence and esteem of the community was to seek a new pastor. While Mr. Hampson was speaking

he was frequently interrupted by Dr. Darwood's friends, some of whom started to leave the room. Mr. Mickle advised them to remain. They demended that Mr. Hampson be prevented from maligning Dr. Darwood. The presiding elder did not seem to think Mr. Hampson's remarks out of order and refused to interfere. He told those who attempted to tell him what he should do that he was not here to be buildozed and that the business of the conference must be transacted.

DR. DARWOOD'S ANGRY WORDS.

When Mr. Hampson had finished, Dr. Darwood, pale with anger, re- rilla.

plied in a voice choked with various emotions. His speech, like most speeches of very angry mer, was neither wise nor conciliatory. He questioned Mr. Hampson's right to assail him, and denied that the affairs of the church were in any such condition as Mr. Hampson had represented them to be. Growing more excited as he talked, Dr. Darwood declared that ne was not a pauper, nor was he a supplicant for this or anyother pulpit. He was not dependen ton Presiding Elder Mickle for a place to preach, and no matter what action this meeting might take, his usefulness could not be weakened nor his opportunities curtailed.

A SUGGESTION TO DARWOOD.

When Dr. Darwood had subsided Presiding Elder Mickle calmly suggested that since the discussion was likely to be painful it might be well for the pastor of the church to leave the room. The pastor, however, prethat the quarterly conference of a ferred to see and hear the thing through, and despite the kindly meant suggestion kept his seat until just befo e the final vote was taker. Several of his friends, however, left the room in spite of the advice of Mr. Mickle that they should remain.

WORDS OF WISDOM.

There was a very free and full discussion of the whole situation, which at times grew quite acrimonious. To those friends of Dr. Darwood who tried to make the point that a failure to return him to the church would be a triumph for his enemies and would discourage those who had been loyal to their pastor? Mr. Mickle answered that if the church was divided now on account of Dr. Darwood what would be its condition at the end of another year or two years or three years, if Dr. Darwood was returned as its pastor? It seemed to him the part of wisdom to remove the bone of contention, to give the people of the church a chance to forget and forgive past diff-rences, and with God's help they might at the end of the next year be a united and useful church. There ought to be no question of personal loyalty in such a crisis in the church's affairs. The interests of the church were paramount and should alone be consider-

NINE TO FIVE AGAINST DARWOOD. The vote on the motion to recon-

sider was nine for to five against and so the record goes to Conference that St. Paul's Courch does not ask for the return of the Reverend W. McKendree Darwood, D. D.

After the vote had been taken Mr. Mickle said that he knew the sentiments of some of those who had left the room before the vote was taken and knew that they did not think it advisable to have Dr. Darwood returned, but did not care to put themselves on record by voting on the question.

The action of the quarterly conference, coupled as it undoubtedly will devoted consistent and e mest be by the advice of Presiding Elder Mickle that Dr. Darwood be not returned to Middletown, will probably satisfy the Bishop, who presides at Conference, that the interests of the churen will be promoted by transferso, even if his trial at Conference results in his acquittal, his connection with St. Paul's Church will probably end with the Conference year.

WHAT DOES IT MEAN?

Why Did the Mayor Import a Special Policeman from Staten Island.

There is considerable speculation among Democrats and Republican not in the confidence of the boss and especially among the disappointed applicants for appointment on the police force as to the political significance of the appointment of Wm. Faulkner, of Staten Island, as special policeman. Mr. Faulkner has a permanent position on Staten Island which he must give up to become a Middletown policeman, while there are men here who have nothing to do who would gladly have the place and would fill it well.

Mr. Faulkner was a former resident and as he was a good citizen everybody will be glad to have him return to Mid-iletowo, but there are many who would like to 'understand the true inwardness of his appointment. But the "boss" knows and that is sufficient.

How to Grow Laureis in Winter for Spring Blooming.

Horace Hammond, of Port Jervis, has made the discovery that stems of laurel may be kept in a vase of water during the winter so as to bring forth blessoms in the early spring, when flowers are most desirable. Last year he kept the laurels in a cool room, and while they lived through the winter they did not bloom. Last fall he placed others in a warm room and changed the water once a week. They are just beginning to bloom.

Charlie Faulkner Wanted Rev Mr Brink, but Was Outwitted -Mr. Brink Sues His Wife for Divorce and the Elmira Telegram for Libel - Mrs Brink Secures a Warrant for Her Husband's Arrest for Non-Support, Rev. Fred S. Brink, of Philadel-

About two weeks ago papers in a suit for divorce brought by Mr. Brink were served upon Mrs. Brink, the grounds upon which a divorce is asked being desertion and cruel treatment. This ac ion was commenced through a firm of Poiladelphia lawvers.

Mr. Brink has also commenced a suit against the Elmira Telegram for alleged libel in the publication of an article in relation to Mr. and Mrs.

Brink's marital troubles. This latter action was commenced by B. F. Chadsey, but the case has been turned over to Vanamee, Watts & Vail.

It was in connection with these suits and a settlement of a business matter that Mr. Brink came here, vesterday.

When Mrs. Brink learned of his presence in the city she secured a of non-support. The warrant was pla ed in the hands of Constable known to Mr. Brink and his friends. He was forced to remain in town unbut the constable couldn's find out where he was stopping

A NEW IAT. ... GIORM DOOR.

Advanceges and Diambachs of a Recent Contrivance to a Gottiam Building. The new Posts, Telegraph building at Broadway and Managestreet has a pat-

ent revelving storm door, which, the inventor says, is the first of its kind introduced into this city. The door has four wings, after the fashion of a turnstile. There are four doors, in fact, each of them bound with rubber weather strap- The person entering the building but hes admits time wing on the right, and the contrav. and highes to revolve. By the time he has turned the wing far enough to get inside the lunding the one be-

hind him has et sol.

There is a commendable absence of old drafts in the work of this revolving door and no turning of knows, only a little confusion sometimes when two persons try to go in apposite directions at the same time. Two young women, for instance, approach d'ibe entrance on Satarday a terricon, one of whom went to the right and the other to the left. Of course they were pushing against each other, and hearing the laughter of some men behind them they pushed the harder, neither wishing to be defeated in what she decided a test of muscle. So they pushed until some men waiting to get in explained to the would be amazons that the door would open only from the right anyhow, and that pushing on the left would prevent it from opening at all. Thereupon one of the men opened the right door with a simple motion. The girls were perfectly hoppy over the fact that they had at

least kept each other out. The next to have an argument with the new fangled patent was an excitable, well dressed frishman, who also pushed to the left. Not being successful he turned partly round to investigate, when a bustling young man shoved the door ontward with a rush, and the Irishman's silk hat was knocked off and his dignity otherwise tadly ruffled. He was partly carried inside the building by the revolution, so that by the time he got outside again to expostulate his unknown assurbant was lost in the "shuffle" of the Broadway crowd, unconscious of having injured anybody's feel-

Although the revolving door at times affords as much amusement as a scene in a Drury Lane pantomime, it is said, on the whole, to be a success.-New York Tribune.

HE STUCK TO HIS FRIEND.

An Act of Heroism Which Saved a Wounded Man's Life.

A young man named Henry Brault, a resident of Peterboro, Ont., recently performed an act of heroism, actuated by friendship, which is worthy of record among the heroic deeds of heroic men of any age. Drault and another young man, John Jamie-ou, were at work in the wild Madawaska region for the St. Anthony Lumber company. Jamieson met with a severe accident, which render d him denrious, and Brault started with him for civilization, where surgical treatment could be had. They had traveled on foot but a few hundred yards when Jamieson's strength gave out and he became helpless. Brank, determined to save his commanion, should red the invalid and started on his long, cold tramp of some -40 miles to the immediations Without a moment's sleep, and bearing, besides his human burden, a pack of provisions, Brault continued his journey four days and mulits. Almost as helpless from exhaustion and fatigue as his friend was from illness, he had the satisfaction or reaching the end of his journey and placing Jamieson where he was able to be properly treated.—Des Moines Leader.

### A Famous Elm Cut Down.

The famous old elm which for 117 centuries stood on Somerville avenue, at the corner of Central street, Somerville, has been cut down. The tree was on the line of march when the British forces retreated from Lexington. It bora a placard which furnished the information that the tree was planted in 177- by Thomas Rand. The exact year is not known. The erection of a building on the land near the tree, which stood in the middle of the sidewalk, directly in front of the building, made it necessary to remove it. There was opposition, and it was only after much deliberation by the city government that the order for the removal of the tree was passed. Many souvenir hunters have carried off pieces of the tree. - Boston Transcript.

### Jap Proclamations In China.

It is stated in the Chinese papers that the Japanese have placarded Peking with notices that they will not interfere with the business of the place or any of the peaceable "inhabitants; that they expect to be there shortly, and the people are not to be afraid that they will molest or annoy them in any way. They further offer a reward of 400 yen for any information that may lead to the detection of any person who shall have pulled down these placards. The Chinese officials, it is stated, are afraid to order the removal of the placards.—Landon

Rebecca Wilkinson, of Browns-

valley, Ind., says: "I have been in a distressed condition for three years from nervousness, weakness of the stomach, dyspepsia and indigestion until my health was gone. I had been doctoring constantly with norelief. I bought one bottle of South American Nervine, which did me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely medicine; a few bottles of it have cured me completely. I consider it the grandest medicine in the world." ### What He Thought.

Have you ever watched the kinetoscope dawn on the human mind?

To the uninitiated it is a nest looking brown box, with a nictal arrangement at the top, the whole resembling a nice piece of furniture. The visitor who has never had any experience with it before will waltz up in a hilarious mood and deposit his quarter with the presiding genius who watches over the machines.

Then the visitor will amble softly in, look inquisitively at the operator and

"Put your eyes down against the opening." directs the operator.

Cautiously the patron does as he is directed, shrinking back as if he momentarily expected a live contact with electricity. The operator touches the lever, and instantly the dark interior of the machine becomes alive.

The expression of the customer's face undergees a swift change. Wonder and amazement are clearly depicted on the countenance of the amazed mortal. He gazes at the picture in rapt amazement, as if he expected the figures in it to speak. Before he recovers from his surprise the vivid scene is blotted out with a snap.

He lifts his astonished eyes from the picture, and looking up exclaims: "By gosh, I've allus hearn tell that them livin pictures was great."-Atlanta

-Nr. Augustus Ireland has been spendicy a few days with his family

nt their home at Crystal Run. -When the wise man or old said that woman was the root of all evil he must have cost his prophetic eye as far into the future as the days of greenbacks. In last Sunday's World appeared an article written by a man of science and adorned with many blood curdling illustrations, that showed very plainly that the average one and two dollar bills which are in circulation are nothing in the world but a rendezvous for bacteria and badilli of various forms, sizes and phaper, and all very much on the rampage. In fact if a man were gi'ted with eyes as powerful as the ens of a microscope, he would have to be an expert to discover whether he was in possession of a one dollar bill or an attack of delirium tremene. Each and every one of these playful bacilli spends his wicked little life in appeading abroad all the diseases with which he is capable of infecting menkind and, according to the man of science, his capacity in that direction is almost unlimited. Perhaps the sclere ason that so many of us escape death from a complication of diseases is because of an inadequate supply of these same bills. Poverty is sometimes alluded to by those who Ency no better as a blessing in disguire, and so thoroughly is the blessing disguised very often that nothing short of a detective can discover It. Many Women Will Recognize It. [SPECIAL TO OUR LADY READERS ]

"Oh, I am so nervous! No one ever suffered as I do! There isn't a well inch in my whole body! I honestly think my lungs are diseased, my chest pains me so: but I've no cough. I'm so weak at my stomach, and have indigestion horribly. Then I have palpitation, and my heart hurts me. How I am losing flesh! and this headache nearly kills me; and the backache - Heavens! I had hysteries

yesterday. There is a weight in the lower part of my bowels, bearing down all the time: and there are pains in my groins and tells me to keep quiet. Such mockery!

Inflammatory and ulcerative conditions at the neck of the womb can produce all the above symptoms in the same person. that can escape those sympathetic pains

No woman should allow herself to reach such a perfection of misery when there is positively no need of it.

Lydia E. Pinkham's Vegetable Compoundacts promptly and thoroughly in such cases; errengthens the muscles of the womb, heals all inflammation, and condition. Druggists are selling carroads of it. Mrs. Pinkhani, at Lynn. Mass., will gladly and freely answer all letters asking for advice.

Mrs. E. Bishop, 787 Halsey Street, Brooklyn, N.Y., suffered all the above described horrors. Now she is well. Lydia E. Pinkham's Vegetable Compound cured her. Write her about it.
